Nature of Incident

On Tuesday April 25, 2023 Nickel was heard using profanity toward one of his school mate. I went on the Grade 10 Block where the student was seen on the corridor. I brought him to the Dean's office where inquiry was made about his misconduct. I then searched the student's bag where a yellow box cutter knife was found. I immediately called the School Resource Officer which came in to speak with the child. His guardian was called later and a letter was given to him to take home.
